OFFERTE DI LAVORO

URGENTE ----- PhD studentship in Hull (UK)

The Department of Psychology of Hull is seeking high calibre applicants for the degree of PhD with a research interest in the area of Social Cognition. A three year position, funded by the AHRC, is available in the Social Brain Lab led by Dr Tjeerd Jellema. The project in Hull forms part of a European consortium called 'Boundaries of Mind' under the CNCC (Consciousness in a Natural and Cultural Context) program of the European Science Foundation (<http://www.esf.org/cncc>).

The project aims to explore the individual limitations in the mental and perceptual ability to switch between concepts, or to form concepts. A specific aim is to investigate a possible correlation between the degree of flexibility in concept switching and the degree to which people possess autistic-like traits. To this end, not only mild (Asperger) and severe autistic individuals will be studied, but also typical individuals selected on the basis of their score on the Autistic Quotient Questionnaire.

There will be ample opportunity to collaborate with the other members within our consortium in Utrecht and Leuven, and with the other CNCC groups (e.g. through fully funded visits, workshops and international meetings).

Applications are welcome from candidates with an interest in cognitive neuroscience, neuropsychology, cognition, perception, and autism. Applicants will have a first class or a good upper second (or equivalent for non UK applicants) degree in Psychology or related disciplines. Applicants from non-EU countries will be expected to cover the extra fees due by overseas students from other sources.

For further details and informal enquiries, please contact Dr Tjeerd Jellema on tel: +44 (0)1482-466490, email: T.Jellema@hull.ac.uk. Further information about the department can be found at www.hull.ac.uk/psychology.

The *closing date for receipt of applications is the 6th of July 2007*. It is anticipated that interviews will be held on the 19th of July.

To **apply** send a letter of application, CV including the names of two academic referees, and copies of your academic qualifications to: Joanna Arnett; Department of

Psychology; University of Hull; Cottingham Road; Hull HU6 7RX, England, UK. E-mail: j.c.arnett@hull.ac.uk

Borse pre- e post-doc del programma DISCOS Marie Curie RTN

Info: <http://www.discos-rtn.eu/>; Yves Rossetti: rossetti@lyon.inserm.fr; Alessandro Farnè: [farnè@lyon.inserm.fr](mailto:farne@lyon.inserm.fr). Si suggerisce di contattare Yves Rossetti o Alessandro Farnè per posizioni riguardanti il laboratorio di Bron (INSERM U534 Espace et Action, vicino a Lione); in ogni caso le procedure di candidatura sono centralizzate (si veda la nota sottostante).

DEADLINE for Applications: **July 30, 2007**

Starting dates of the positions are between 01.08.2007 and 01.01.2008 (duration 36 months for ESR, 24 months for ER). If you are interested in one of these positions, please send your application (preferably by email, and by naming the post you are interested in) including CV and, if possible, two references (name, email, phone) before the closing date to the network coordinator: Prof. Thomas Fuchs, Thomas.Fuchs@med.uni-heidelberg.de, Department of Psychiatry, University Hospital Heidelberg, Vossstr. 2; D-69115 Heidelberg, Germany. Note: The mobility condition for Research Training Networks implies that, as a rule, researchers have to be appointed in a country different from their own nationality.

CONVEGNI NAZIONALI

Congresso Nazionale della Sezione di Psicologia Sperimentale (AIP)
Como, Centro di Cultura Scientifica "Alessandro Volta", Villa Olmo,
17-19 settembre 2007
